

CH-3

CHEETAH SAFETY CAGE INFLATOR SYSTEM

The CH-3 Cheetah Safety Cage Inflator System seats the bead on difficult tires located in a safety cage (not included) faster and safer than any other system on the market. The CH-3 is totally universal and can accommodate virtually any size tire that is normally inflated in a safety cage.

- The CH-3 simply bolts to safety cage using fully adjustable brackets.
- Included with the CH-3 Cheetah Safety Cage Inflator System is the nozzle, adjustable bracket and mounting hardware, 6' x 1½" inflation hose, and inner tube for preventing excess tire movement within the cage.
- The CH-3 does not include the safety cage or discharge tank. Discharge tanks are available as options in various sizes.
- Made in the USA!
