

PASSENGER CAR & LIGHT TRUCK **WALLRACK20**

Introducing a NEW option
for wheel weight storage

A True Innovation

Perfect Equipment invented the now 'industry standard' color-coded wheel weight inventory management system.

An Inventory Solution

Made of cold-rolled steel, the WALLRACK20 features 32 qty bin openings that measure 4"x8"x4.5" each. More than enough room to hold a bounty of clip-on wheel weights.

Made to Survive

Premium powder coated with a gloss grey finish, the WALLRACK20 can survive even the harshest of shop environments.

Applications at a Glance

By utilizing the supplied application guide or wall chart, installers can quickly identify late-model cars and light-trucks and their corresponding clip-type name and color code.

Additional Details:

- 32 bin openings (4 up, 8 across) capable of holding up to 50 weights each
- Sticker label pack included, organize it your way
- Mounts to wall using bolts into studs or block - mount close to balancer!
- Dimensions: 34" wide x 8.5" deep x 19.25" tall, 32 lbs. total weight
- Ships in 2 boxes (rack in box 1, header card & labels in box 2)

PART NUMBER: **WALLRACK20**
